Pharmacy

The pharmacist acts as an information center on a multitude of health matters. You can turn to your pharmacist for information on the latest drugs, medical supplies, disease prevention, local health facilities, or just about any health-related question. Thanks to the pharmacist, you and your family can enjoy the prospect of longer, healthier lives than ever before.

Your Pharmacist is a Trained Professional!

- They place a personal interest in your family well-being.
- Pharmacists have a large supply of drugs and medicines in stock, plus information, specialized training and constant advice.
- Pharmacists are professional caregivers who are prepared to assist you in the selection of the most appropriate medicine for your condition.
- Pharmacists offer advice on drug use, special orders and savings on medicines you purchase.

Pharmacy

Trails of Trade

While every pharmacist has their own, unique personality and character, there are certain traits common to most pharmacists:

- Pharmacists are dedicated. The highest standard in a profession can lead to high concentrations.
- Pharmacists are reliable. Long after graduating from college, pharmacists must be aware of medical and scientific advances.
- Pharmacists have an attitude for service. They need this to graduate from college as well as to succeed after college.
- Pharmacists enjoy caring for patients. Most of their time is spent with patients. Involvement and patience for making decisions.
- Pharmacists enjoy doing what they do.
- Pharmacists follow a strong ethical code.
